

OCEANS OF OPPORTUNITY

LEARN ABOUT THE BENEFITS OF PLASTIC & METAL CONVEYOR BELTS

With the most conveyor belt patents for the seafood processing industry, Ashworth has revolutionized the future of conveyor belts. Our experts have been advising clients for decades on which system is best for their needs, and combined with Ashworth's Factory Service, we can help ensure that your belting system will continue to operate efficiently for years to come.

EXACTASTACK®

Flexible belt stackers that deliver cost-effective, high quality food processing solutions.

SPIRALSURF®

Customize to meet individual requirements for cooling, and freezer applications. Perfect for tight transfers and small products.

OMNI-GRID 360®

Increase capacity while minimizing maintenance and downtime in the most demanding applications.

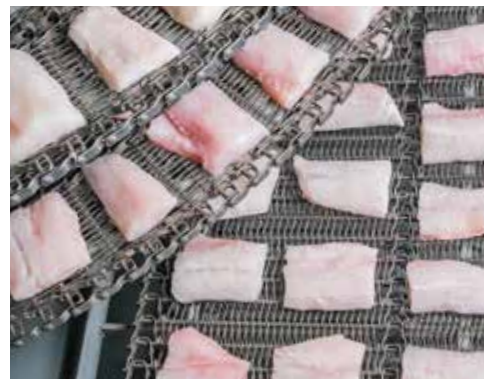

CLEATRAC®

The perfect food processing solution to accurately transfer products, minimize product damage, and keep your process up and running.

ADVANTAGE®

Ideal for use in food processing applications where product release and sanitation is critical.

POSIDRIVE® SPIRAL

Recommended for applications where product movement is a problem, or where oils or other characteristics cause issues with Lotension drive systems.
